people and teams, creating change and impact

- A professionally aware and informed leader who can make evidence-based decisions and approach headship in an effective and efficient manner
- The ability to review and evaluate practice in order to bring about change and get the best outcomes for young people and staff within the organisation

Our Approach

Delivery of the curriculum is grounded in TDT's values of:

- SMART - we think about what the evidence tells us, but we also really care about how things are done.
- HEART - it's not just taking the evidence base and implementing it any old way, it needs to be done in the right way if you want to have that sustainable impact
- HUMBLE - we recognise that there is no single perfect answer to any situation - participants will come from different environments, different schools, different contexts - and we need to understand the limits of what the evidence tells us at times and use our judgement.

- Provide the strategic lead of effective teaching, curriculum, assessment and culture within your school
- Lead effective professional development, change and implementation
- Manage a school's systems and processes, working with partners and governors
- Build a stronger understanding of your own strengths and areas for development, helping to create a more sustainable and resilient approach to leadership
