Our Approach

Delivery of the curriculum is grounded in TDT's values of:

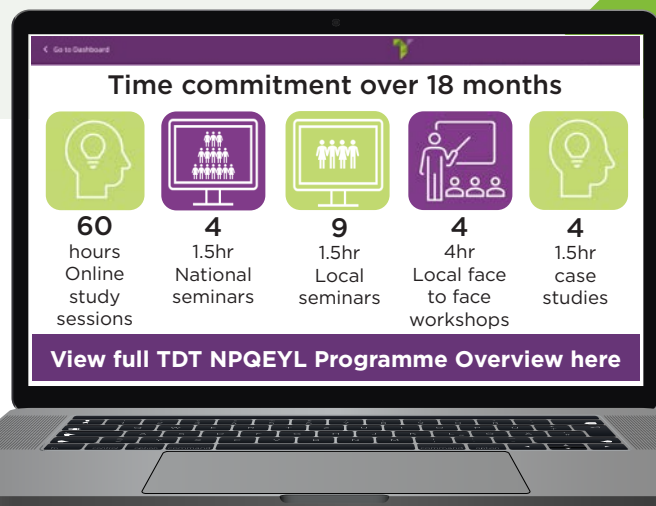

- SMART - we think about what the evidence tells us, but we also really care about how things are done
- HEART - it's not just taking the evidence base and implementing it any old way, it needs to be done in the right way if you want to have that sustainable impact
- HUMBLE - we recognise that there is no single perfect answer to any situation - participants will come from different environments, different schools, different contexts - and we need to understand the limits of what the evidence tells us at times and use our judgement

The course

A blend of flexible online learning, online discussion, virtual seminars and face-to-face workshops, for a few hours study each week over 18 months. This is followed by an assessment where you will complete a 1500-word case study assessment to demonstrate your understanding of real leadership and change.

This completely new **Leadership NPQ** has an evidence-informed curriculum design, connecting you to the latest research and best practice. Our research-rich course covers all of the core content in the **government's Framework** for this qualification. It will help you to:

- Develop a culture that supports sustainable improvements over time, responding to evidence on child development and effective early years practice
- Support the delivery of a strong curriculum that responds to the demands of the Early Years Foundation Stage
- Understand the evidence on SEND in the early years and make appropriate provision to support babies and young children to access support where needed
- Support the development of all staff within an early years setting
